Tube Style

Step 2a

Using a coin, unscrew cover from carrier compartment. This is located inside the black plume chamber.

Step 3a

Slide Mosquito Magnet Octenol Biting Insect Attractant into the carrier compartment.

Step 4a

Reverse step two to close carrier compartment.

Drop in Style

Step 2b

Locate the round green attractant compartment cap located under the hood and turn to unlock position. Lift off cap to open.

Step 3b

Place opened cartridge inside the compartment's center delivery tube.

Step 4b

Replace the attractant compartment cap and turn clockwise to the locked position.

Drop in Tube Style

Step 2c

Locate the black plume tube and separate it from the power head. Remove the attractant carrier located inside the plume chamber.

Step 3c

Slide the opened cartridge face down into the carrier's retaining rails. The cartridge will lock into place with a click.

Step 4c

Place the carrier into the plume tube with the fins down. Re-insert the plume tube into the power head's trumpet.
